

**LIPPMANN®**

# STACKERS

**TRACKED OR WHEELED**

Lippmann's stacking conveyors provide stockpiling solutions that maximize the efficiency of mobile screening and crushing plants. Tracked or wheeled, Lippmann conveyors deliver high stockpile capacity and less downtime across every application.

**LTS-80**

## **TRACKED ▶ LTS-80 | LTS-100**

The LTS Tracked Stackers are all about efficiency, from its speedy setup time to its high degree of mobility; downtime is minimized while throughput and stockpile capacity are maximized.

Hydraulic main lift and top fold are standard, as is the diesel power unit. Electric and dual power are also available to get the job done, no matter what application. The 22.5 degree maximum conveyor angle allows for the highest stockpiles per conveyor length in the industry.

With its durable truss frame, large feed hopper and base production capacity of 500 TPH with optional upgrades to 800 TPH, the LTS Stackers stand up well above the competition.

## **WHEELED ▶ LWS-80 | LWS-100**

The LWS Wheeled Stackers have been designed for high capacity stockpiling operations. All units come standard with diesel power units, hydraulic main lift and hydraulic top fold. Electric and dual power are both available as options based on the best application for the customer's business.

This heavy duty mobile stacker has a setback axle and 22.5 degree max conveyor angle allowing for the highest stockpiles per conveyor length in the industry.

The highly portable wheeled stackers also boast a durable truss frame, large feed hopper and base production capacity of 500 TPH with optional upgrades to 800 TPH.
